A NEW LAGER BIER

S A L O O N !
BY PETER WORTH,

No. 2 Cary Block, Batavia.

"Pete" would inform his friends around
He's took the Stand—on Gardner's ground—
In No. 2 of Cary's Block,
Where Lager's sold, of purest stock!
He has re-modeled this Saloon,
And made it now a splendid Room.
It is a place of fine resort
Where Lager's drank, of sparkling sort;
Here Patrons can, with ease retire,
And "Pete" will them, with Bier inspire—
Or sell them all a dinner, warm,
Or Lunch, that's wholesome, good and pure—
"Pete" is a clever man, with all,
Though often high he looks, and tall,
He will expect, in Patrons pay,
To treat them all in friendly way!
With sparkling Lager by your side,
This world of sin you would deride
And in your lowest need, must say,
Bright Lager puts in healthy way!

The Cheerless and Hopeless.

Without hope, we should, "of all men be most miserable"—without cheer—without intent and without reason; with not a ray in all the sounds of beauty, and the glow of Nature, which every where surrounds us, to perpetrate our ambition, and impart strength to our undertakings. The world would be sad and cheerless—would be a charnel-house, full of heartaches and rottenness, that would devour our being, and annul every enduring tie.

The cheerless spirit is a clod in the midst of plenty—devoid of ambition or Hope but in its own lost interest, and like an ice-berg in the great sea of life, upon which it sheds its damps and frosts upon the breeze of its surroundings, it stands an unmeaning block, a sure wrecking pedestal, for other, and gala barques to perpetually flounder upon.

Hopelessness is a worm that gnaws, a canker worm that eats upon the life currents of all life, and spreads consternation upon the very breath of Time. It clogs the wheels of Progress, and damps the energies of perpetual unfoldment. Reason has lost its sway and truth has no bearings, while the winds of fate, by the sure breath of her design, control even the winds and the elements to spread consternation thro' her entire circuit, where hopelessness has become a triumph.

To perpetuate this state, this condition of human Nature, combines all the elements of its surroundings, which make its sure work upon the human mind and heart, and it each yields to the strong motive that bear it down, and veils perpetually the expanding gem which is forever shooting upward and grasping its proportions and thus fitting itself for endless progression.

Mrs. Mary Travis, a widow aged eighty nine years, who resided with her son-in-law, Mr. Samuel Horton, near Red Mills, Putnam county, hung herself on Friday, in a fit of melancholy. She attached one end of a silk handkerchief to the top of a bedpost, and tied the other around her neck, and by throwing herself downward effected her purpose.

The Washington correspondent of the N. Y. Herald says that "letters were received Friday morning, brought by the Europa, from Mr. Dallas. The aspect of affairs in Europe, he says, gives little hope of an early peace. Active operations will continue in the territories of the belligerents and States not involved in the war. It is thought that the vexed questions of neutral rights will paralyze the commercial interests of the Old World, while we must in almost any event be benefited. He says also that it is the opinion of the leading statesmen, that should the war be long protracted it will be difficult for England to preserve her neutrality. The Derby Ministry, it is thought, is short lived."

The La Crescent Banner says the Mississippi at this point is now about as high as it was ever known to be. Steamers have a wide channel, and can run almost anywhere over the bottom lands. Our gravel road has been seriously damaged, one of the bridges having been swept away. At Winona the water is running through the principal streets, and some of the inhabitants have ingress and egress to their dwellings through the upper windows only. The "city" is approachable on either side by skiffs only.

There is a great strife going on between the Douglas and Buchanan factions in Iowa. Each one trying to control the approaching State Convention, and each threatening to bolt if the other succeeds. At Dubuque, the Douglasites have beaten their rivals badly having elected their delegates. It is very probable, also, that the Douglas Democracy will control the State Convention, and have the ordering of things generally, so far as the party is concerned.

What a Calamity.—*A young lady of Brandon, Vermont, who had been undergoing all the the advantages of a high-toned seminary education, has eloped with a Rutland tinker and "fled to parts unknown."—N. Y. Paper.*

Suppose she did, ain't a tinker just as good as any body? We'll venture to say this young mechanic is far superior in intellect, genius and every qualification that adorns a man to one-half the "high toned" young bucks you meet in first society, who pass for "bricks" and hain't got means enough to pay their tailor's bill—just so!

There is a letter in one of the Chicago papers from the Hudson Bay Company's domains. It is cold in those parts. The writer mentions a walk of five miles on the ice from an island in Lake Superior to the main land. The snow in the woods is several feet deep, and Dog Lake is still frozen hard.

The Paris correspondent of the New York Express says: "Three Senators of the United States Congress are now here; Mr. Seward, of Massachusetts, the latter apparently in restored health, and just from Turin. Governor Fish goes home with his family in July."

A young woman calling herself Alice Cary and representing herself as the poetess of that name, has been creating a sensation at Portage, Wis. She was rather good looking, and by her "poetical address" captivated the good citizens of that place. Her sudden departure, however, without paying her hotel bill, materially diminishes the enthusiasm in her behalf.

We learn that the missing young lady who disappeared from Lima a few days since, has been found, dead, in Hemlock Lake.

Great Excitement!—Knowles Ahead

Busy is the day. Hurrah!—Just received this morning Barrels upon Barrels of fresh Vegetables and Fruits. Green Peas, Radishes, Pie Plant, Onions, Asparagus, Pine Apples, Cocoa Nuts, Oranges, Lemons, &c., &c. Call immediately for Knowles & Burt always make the Vegetables fly. Remember Knowles' head quarters, opposite of the Eagle.

Mr. John Howard, a very respectable citizen of Minneapolis Minnesota, some time last month returned home and found a man named Snell in his bedroom, &c. A scuffle ensued, Howard attacking Snell, with a knife, but the woman interfering in some manner permitted Snell to escape unharmed. Howard immediately ordered his guilty wife to pack up her effects, and sent her home to her father's house in Chautauque county, New-York. In the meantime Howard publicly gave notice to Snell and his friends that he should slay him at sight. Snell very prudently kept out of the way, until Tuesday morning last, when Howard caught sight of him at the corner of Washington Avenue and Helen street, and immediately commenced firing at him. Snell ran into a store, pursued by Howard, who put three balls into him before he gained the security of the cellar where he ensconced himself. Howard ran from door to door of the store to get a chance for another shot, but Snell not appearing, he was taken away by his friends. The balls were extracted and Snell was at last accounts wavering between life and death. The parties had been friends and lived on the most intimate terms.

A Queer Genius.—This morning a man whose name is Jesse Ellison, called at the Mechanics and Farmers Bank. He said his name was "Jesus" and wanted $10,000. He said that he came from England and brought an armed force along with him to get his right. He was asked what $10,000 he had reference to. He replied the $10,000 that he had buried under Niagara Falls and which the Banks of this city had taken up and appropriated to their own use—that they had the use of it long enough and as he now was about building a house, he wanted the money for that purpose. The officers of the bank discovered that he was of deranged mind and sent for policemen who came and took Ellison in charge. He was subsequently sent to the Alms House Hospital.—*Alb. Stat.*

At Gaffney race-course, South Carolina, a tree under which several persons were standing was suddenly struck by lightning, although a few moments before the sky was cloudless. Six or eight were prostrated, several stunned. One man was killed almost instantly. On his person was a singular instance of the photographic power of electricity. On the front surface of the thigh was indelibly impressed the perfect branch of a tree, leaves and all; and this not withstanding the part was protected by his pantaloons and drawers.

NEWS SUMMARY

—Rev. Mr. Stewart stated recently that there are now eight ships of the American navy on each of which a daily prayer meeting is held.

—A German "merchant in Wheeling, Va., was married on Tuesday, after being a widower only one week.

—The Livingston (La.) Reporter states that a negro boy belonging to Capt. J. P. Harvey of that place, recently blew off the top of his head by accidentally discharging a gun he held in his hand.

—Noadiah, of Champion, the first actual settler of Jefferson Co., and father of Judge F. W. Hubbard, of Washington, died on Sunday last at the advanced age of 95.

—Monday, a poor Jew at Richmond, received a letter from Europe, informing him that a large amount was his by inheritance. The excitement was too great—he fell from his chair and died immediately.

—The great Marble Palace Hotel on Fifth Avenue, opposite Madison Square New York, is nearly done, at a cost of $1,144,000! and will be opened August 1st. The building cost $400,000; ground $350,000; furniture $200,000; steam, plumbing and gas fixtures $55,000; mirrors $50,000. In splendor, extent and convenience, it surpasses all other hotels in the world.

The Sauquoit Disaster.—Mr. Parks, the Kentucky gentleman who was injured at the Railroad accident at Sauquoit Creek left this city yesterday for the West, having been awarded $1500 for the injuries received. He left with $1000, his lawyer as reported, having retained $500 for his services.—*Utica Tel.*

We learn from the Falls that Mons. Blondin don't go across the chasm on his rope on Thursday, as heretofore announced. There is some delay in shipping his rope from New York. Our informant says—"It is impossible at this time to say when he will walk, but as soon as I can I will let you know by Telegraph." We wait patiently the announcement.—*Buf. Ex.*

The Rev. Henry Highland Garnet, of New York, has communicated to Frederick Douglass a challenge to discuss the merits of the African Civilization Society, in New York, Geneva, Rochester, Boston or Newport, on the 5th of July. This challenge is subject to acceptance by either Mr. Douglass or Dr. James McCune Smith, both of whom have taken ground against the Society, of which Mr. Garnet is President.

Three Italians were drowned at Richmond, Va., a few days since. They were out fishing in a company of five, and the wind capsized the boat. Two escaped and three were lost. One of the drowned had gone through the entire Siege of Sebastopol in the Allied army. They were all under 28 years of age, and very worthy, industrious men.

William Sanborn, James Christian and David L. Garrett, election judges of the 1st Ward, Cleveland, at the last city election, have been sued in the Common Pleas Court by Freeman H. Morris, tailor, who is slightly tinged with negro blood, for having refused to let him vote at that election. The damages are laid at $1,000.

Another Prize Fight in Prospect.—The New York Sun says George King, a boxer of renown lately arrived from England, last week issued cartel of defiance to the equally celebrated Ed. Price, of Boston, so says Porter's Spirit of the Times. Mr. Price is a fighting man, every inch of him, and has not been slow in picking up the gauntlet. A friend of his has deposited in our hands a draft for two hundred dollars, with which to bind a match, at King's earliest convenience, for a battle to come off in Canada. Price wants to make the thing a thousand dollars a side, and has no objection to double that amount at the shortest possible notice. He means business; wants to give King a good square chance, and the only favor he asks is for the other party to hurry up. The two hundred (or one hundred if it will suit King better) waits to be covered.

They "do" an elopement in New Hampshire after this style: One Warren, at Goffstown, felt that he had an affinity to the wife of Wm. Nute, and finding that Mrs. N. reciprocated it, he had a talk with the husband about it, in the course of which Mr. Nute remarked sarcastically to Warren that if he had any better right to his wife than he himself had, he had better take her. Warren replied that he had the right of doing so, and a few minutes after said to Mrs. Nute, "Come Sis, make haste, we have a long ways to go," and they prepared to start. Finding them determined to go, Mr. Nute gave his wife some wholesome advice, presented her seventy-five cents to buy a fan, (to cool off) and Warren, with Nute's wife started off on foot, with no baggage or clothing, except what they had on, for Manchester.

BY TELEGRAPH.

NEW-YORK, June 20.

The Tribune understands from good authority that Gen. Walker has organized a new 800 man expedition to invade Nicaragua, and that it will sail from this port to-morrow or next day. Active recruiting has been going on for some time, and a very respectable force as to numbers has been engaged.

A despatch from Washington says the recent story about counterfeit postage stamps, originated with parties who wanted to impose the new envelopes on the Department. Investigation proves that no counterfeits have ever been detected.

A despatch from Washington states on probable authority, that Mr. McLane has negotiated a treaty with Juarez, ceding to the United States the States of Sonora and Chihuahua, and a part of the Tamaulipas, the United States engaging to assist the Liberal party and to pay the claims within a limited amount, to be ascertained by a Mexican Commissioner.—The treaty is expected here within a month.

WASHINGTON, June 20.

The Collector of Baltimore has applied to the Secretary of State for information as to the nature and extent of the protection which may be afforded by the United States to a foreign built vessel, purchased by an American citizen. It is understood that our government entertains the views held by the last administration, viz: That if an American citizen buys, in good faith, a vessel from a belligerent or neutral power, with whom we are at peace, it becomes American property, and is entitled to protection, like any other American property. The vessel, however, cannot get a register unless by the act of Congress.

A Black-hearted Confession.—Little Lizzie, five years old, is a very good little thing; but one day she was provoked by an older sister's refusal to surrender a rocking chair to her and bit her, for which she was punished. Shortly afterwards she came to her father and looking up in his face, said:

"Pa I am sorry."

"Sorry for what my dear?" asked her parent, softened by the appeal of humility as he took it.

"Sorry Emma wouldn't give me the rocking chair," replied the child.

Papa's countenance took a sudden change at the "soft" appeal.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
